

HOBIEX OTOMOTIV A.S.

ABOUT US

Established as an exhaust service in 1996, Hobi became professional in the Turkish automotive market in a short time with its quality products in all kinds of exhaust and emission systems for trucks, buses, heavy machinery engines, generators and diesel engines.

Since 2000, the Hobi has gone beyond just local summer with investments and started to be marketed in European and Middle Eastern markets.

Hobi has grown rapidly with the right investments made with the correct analysis of customer needs and in 2004, the service increase started in its new factory with a closed area of 4,000 m2.

The company has accelerated its R&D investments to be professional from that point on.

Buy, Hobi not only in Turkey but also in Europe only targeting one of the most important companies in its field, its machinery and product line changes.

Hobi exports 90,000 exhaust systems to 55 countries per month, with 400 employees, 3 modern factories, 30,000 m2 closed area, 1,200 m2 sales and service in France.
