

OLGUN CELİK A.S.

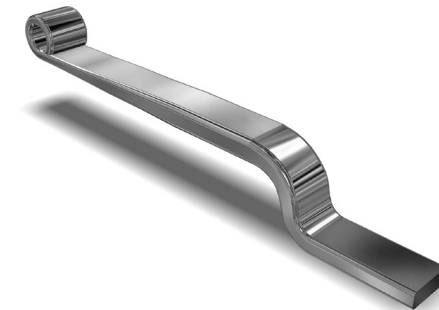

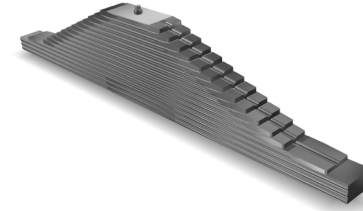

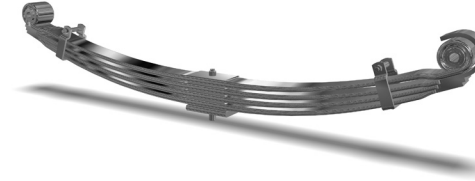

ABOUT US

As OlgunCelik , we have started our journey in automotive industry in 1945 in Izmir. After more than 75 years, continuous improvement in suspension technology and light weight solutions are still our main focus. We peg away at this way in order to optimize our production performance in our modern production facilities in Manisa Industrial Area.

Our strong perspective in engineering innovation and dedication to quality has established OlgunCelik as a industry leader in light commercial suspension solutions in Europe and we continue our way and work hard to expand and secure our place in light and heavy-duty commercial vehicle industry.

As OlgunCelik, we assure to be not only a supplier but also a solution partner for all our customers. From design to extensive manufacturing, internationally certified OlgunCelik products are well tested to provide the optimal performance and high durability in all road conditions.

Each one of our parts comply with the international quality standards. Our certified categories are; Daimler Category A, FORD Q1 , IATF 16949:2016 , ISO EN 9001:2015, ISO / IEC 27001:2013 , ISO 45001, ISO EN 14001:2015, TSE582
