

SKT YEDEK PARÇA

A LEADING BRAND
since 1955

With our successful history and our excitement, we continue to be a leading brand for oil seals.

TecAlliance
Certified Data Supplier

50 **DINIZ HOLDING**

ABOUT US

SKT is Turkey's leading brand for oil and rotary shaft seals. The company was founded in 1955 in Bursa and is the first company of Diniz Holding. As OE supplier for Tier1 and Tier2 for Automotive, (Heavy) Commercial Vehicles, Agriculture and different Industries we supply axle, engine, transmission and electric powertrain manufacturers worldwide. Beside OEM and OES we supply also the global Independent Aftermarket.

Our product range consists of oil seals, standard seals, shaft seals, valve stem seals, cassette seals, combined seals and anti-vibration elements. In order to satisfy the increasing and changing market requirements, meet the needs and demands of customers, SKT is going global and expands internationally.

With Sales Offices in Germany and Russia we are close to our customers and can give quick response to their needs and requests.

Vertical integration of engineering & production processes, modern technologies, sustainable high quality and continuous improvement are the principles of the company and SKT owes its successful and reliable brand image to the integrated competent divisions.

With its flexible planning and production capability, SKT can respond to customer demands and expectations in the quickest way.

We hold on to our values and light the way for our success.
