

# BILEN EXHAUST SYSTEMS

## ABOUT US

Bilen Exhaust Systems, founded in 1954, is a global supplier of exhaust systems, emission systems and special steel part applications for trucks, buses, military vehicles, tractor and earth moving machines. The company also provides exhaust systems engineering, design and testing services. Bilen manufactures silencers, exhaust and special tubes, insulated tube parts (MEI), exhaust aftertreatment systems and formed steel parts. The production facility is located at Düzce Industrial Zone, located midway between İstanbul and Ankara, at an approximate distance of 200 km from both cities. Being founded in 1954, Bilen has a proud history of being a long term partner for global OEMs, with a powerful R&D background. The company's quality management certifications are IATF 16949, ISO 9001, ISO 14001 and OHSAS 18001.
