

MOTOR OTOMOTİV YATÇILIK VE TURİZM İŞLETMECİLİĞİ TİC. LTD. ŞTİ.

ABOUT US

Motor Otomotiv, established in Istanbul, has been operating in automotive aftermarket industry since 1953. As a 3rd generation family business, our company is growing towards 40 employees and 100'000 references.

Focused to serve mainly fast moving products in aftermarket industry, Motor Otomotiv deals premium quality brake systems, oil, fuel, air and hydraulic filters, suspension and steering systems, clutch systems as well as electrical components for passenger, light commercial and commercial vehicles in accordance with the national and international standards.

Alongside with all premium OEM brands we already commercialize both in national and international markets, we give value to export our own brands: Salvo and SCS. Hardwork of our product engineers have already brought us success, particularly in brake systems industry, as we gained international success with these brands. On the other hand, we would like to highlight Sangsin, Korean original equipment brake pads manufacturer for Asian and European passenger cars, which we deal over 10 years.

Our main international markets are Europe, Middle East and CIS, and we would be happy to serve you both from Istanbul or from our newly opened export office in Zurich, Switzerland.
