ABOUT US

Since 1982, Profil Sanayi has also produced front suspension systems for passenger cars and light commercial vehicles under the brand name of PRS Steering and Suspension Parts. With its current capacity and 46 years experience, it is one of the biggest manufacturers of Turkey an Europe in OEM and OE'S markets, as well as aftermarket.

Profil Sanayi has all the necessary CAD-CAE and measuring devices in order to develop and manufacture new products. Having Ford Q1, ISO/TS 16949, and ISO 14001 quality system certificates, it completely fulfills the requirements of quality standards in manufacturing. By means of its own hot steel forging, machining, mold design, mold manufacturing, cold sheet metal forming, robotic welding lines, robotic assembly lines and the latest technology laboratory equipment, it is able to produce all the orders for customers.

With our technological investments, customer-oriented service approach and innovative aspect, we strive for Absolute Customer Satisfaction and believe that our experience and commitment to quality is the key to our success and continual growth.
